

CUSTOMER CERTIFICATION OF END USE AND EXPORT COMPLIANCE

Customer acknowledges that the commodities, software, and/or technology (hereinafter referred to as articles) it obtains from **TekNet Electronics, Inc. (TekNet)** may be subject to the export and re-export regulations of the United States, and the country where the **Customer** is located. **Customer** warrants and represents to **TekNet** that it will comply with all applicable U.S. laws and regulations and foreign laws and regulations governing the export and re-export of such articles and the direct products thereof. In particular:

1.) **Customer** acknowledges that any foreign manufactured articles produced from U.S. origin technology, or containing U.S. origin parts and components, may be subject to U.S. export regulations. When applicable, **Customer** agrees that it will not, without an export license or license exception authorized by the U.S. Government, re-export, distribute, or otherwise transfer foreign manufactured articles produced from U.S. origin technology, or containing U.S. origin parts and components.

2.) **Customer** certifies that it will not knowingly sell, re-export, release, or otherwise transfer (directly or indirectly) articles obtained from **TekNet**:

- a. for use in the design or manufacture of chemical/biological weapons, nuclear weapons, or missile systems, except as permitted under applicable U.S. laws and regulations and the laws and regulations of the destination country,
- b. to foreign military, police, or intelligence agencies, or for use in space applications except as permitted under applicable U.S. laws and regulations relating to the export and re-export of items to such entities, or
- c. to entities debarred by the U.S. Government as shown on restricted parties lists, or to countries embargoed by the U.S. and the U.N.

Please return this completed form in accordance with the instructions in our cover letter. Thank you.

Technology means specific information necessary for the development, production, or use of a product.

Development means all stages before production such as design, analysis, prototypes, and layout. **Production** means all stages such as engineering, manufacturing, assembly and testing.

Use means installation, operation, maintenance, or overhaul.

Technology takes the form of technical assistance and technical data. **Technical Assistance** includes instruction, skills training, working knowledge, and consulting services. **Technical Data** includes blueprints, plans, diagrams, models, specifications, manuals, and instructions written or recorder on other media.

Export or Re-export means transferring or releasing to another country or to a national of another country (wherever that person is located) by any means physical, electronic or otherwise. You **Transfer** software or technology when you send it physically or electronically to another country or to a national of another country. You **Release** software when you disclose its source or object code, either inside or outside the U.S., to a national of another country. You **Release** technology when you do one of the following:

- 1.) allow a person to visually inspect technical data, equipment, and facilities,
- 2.) orally convey technical data to a person,
- 3.) discuss or apply outside the U.S. personal knowledge or technical experience and know-how, or
- 4.) train people.
