QUALITY ASSURANCE

TekNet Electronics, Inc. Quality Assurance process has verified that (unless otherwise stated) the instrument listed on this order have been tested and judged fully functional in all manufacturer specified performance parameters and includes the accessories listed in the Accessories Table above. TekNet warrants that this instrument will meet all manufacturer performance specifications following calibration by a certified calibration laboratory.

Quality Control (DAJ) _____ Date _____

WARRANTY INFORMATION

TekNet Electronics warrants the above item to be of good operating condition for a period of time concluding on the above expiration date. This warranty may be considered void due to abuse, misuse, or modification of the instrument. The purchaser of this item has implied permission to open the unit, without concern of voiding the warranty, for the purpose of calibration adjustments. Cosmetic defects and consumable items are not covered by this warranty. The customer will be liable for freight to our location and TekNet will pay for the post-repair return freight. International clients are liable for the freight to our location and for the post-repair return freight if Warranty repairs are needed. TekNet Electronics reserves the right to repair, replace or refund the purchase price for any item returned for warranty work.

RIGHT OF RETURN (ROR) and ACCEPTANCE PERIOD

TekNet provides that the customer will have a ten day right of return and acceptance period on all products unless expressly stated at the time of purchase. Please verify (within the acceptance period) that this order is complete and meets the stated operating condition. In the event that a problem is found, please follow the RMA instructions below. In the event of a ROR return, the customer will be liable for the original freight to their location as well as the return freight to TekNet Electronics.

RETURN MATERIAL AUTHORIZATION (RMA)

In the event that the purchaser elects to return the unit during the ROR period, if the item is not working or the item is incomplete. Please call the TekNet Electronics Customer Service Department (678) 965-4660 for assistance or a Return Material Authorization (RMA) Certificate. An RMA Certificate must accompany all items returned. TekNet electronics reserves the right to repair, replace, or refund the purchase price for all items returned for warranty repair. To return items for warranty repair, or under the ROR, please call for return authorization and ship freight prepaid to the address contained on your RMA Certificate.
